THERMOTEX PLATINUM

Engineered to flex and wrap, providing targeted, safe and effective far infrared heat to comfortably treat any part of the body.

The Platinum System is the most studied, popular and versatile far infrared therapeutic device in the industry. Boasting 3 patented heat inserts, the Platinum System provides effective infrared heat to almost every part of the body, including the large muscle groups of the upper and lower back, hamstrings, abdomen and arms.

After just 20 minutes of use, the soothing infrared wavelengths penetrate up to 2.36 inches into the applied area. This results in an increase in blood flow, which enhances the natural properties that the body requires to heal. Providing nutrients, oxygen and proteins to the area and delivering temporary relief of pain and inflammation.

THERMOTEX GOLD SYSTEM

Built specifically to target the larger muscle groups including the hips, hamstrings, upper and lower back and shoulders, to deliver safe and effective far infrared heat.

The Gold System utilizes a single patented far infrared insert.

After just 20 minutes of use, the soothing infrared wavelengths penetrate up to 2.36 inches into the applied area. This results in an increase in blood flow, which enhances the natural properties that the body requires to heal. Providing nutrients, oxygen and proteins to the area and delivering temporary relief of pain and inflammation.

THERMOTEX ELBOW

Designed with versatility in mind to target the elbow, wrist or hand, to deliver safe and effective far infrared heat.

The Elbow System utilizes two patented infrared inserts.

After just 20 minutes of use, the soothing infrared wavelengths penetrate up to 2.36 inches into the applied area. This results in an increase in blood flow, which enhances the natural properties that the body requires to heal. Providing nutrients, oxygen and proteins to the area and delivering temporary relief of pain and inflammation.

THERMOTEX WRIST/DUAL

Designed to target the wrist or forearm to deliver safe and effective far infrared heat. The Wrist System is available for both the left and right wrist providing comfortable and ergonomic fit.

Our Wrist Systems utilize one infrared insert.

After just 20 minutes of use, the soothing infrared wavelengths penetrate up to 2.36 inches into the applied area. This results in an increase in blood flow, which enhances the natural properties that the body requires to heal. Providing nutrients, oxygen and proteins to the area and delivering temporary relief of pain and inflammation.

THERMOTEX KNEE

Built to effectively target the knee, thigh and calf areas to deliver safe and effective far infrared heat.

The Knee System utilizes two patented far infrared inserts.

After just 20 minutes of use, the soothing infrared wavelengths penetrate up to 2.36 inches into the applied area. This results in an increase in blood flow, which enhances the natural properties that the body requires to heal. Providing nutrients, oxygen and proteins to the area and delivering temporary relief of pain and inflammation.
